

Hello,

I understand that the FCC is considering the expansion of LPFM stations that would take priority over existing FM stations. I would be opposed to this if it would cause me to lose radio service from K-Love. K-Love is the only service of its kind in this area. K-Love's motto is "Positive & encouraging K-Love" and it certainly is. I know of many people including myself that depend on K-Love for encouraging and uplifting conversation and contemporary Christian music with a positive message, un-biased news reports and public service announcements. Please consider this in your decision. Again, K-Love is a wonderful addition to the air waves in this area. There is nothing else like it here. Thank you for your forum.

Sincerely,

Kevin E. Walker
